PRESENTATION/UPDATE Scituate High School Tennis Courts Project, Mark Novak, Activitas and Jamie Gilmore, CPC Project Applicant

Mr. Novak provided an update on the project for the High School Tennis Courts. He said this will be on the Town Meeting Warrant under CPC projects for approval. A community meeting was held at the town library. There were some good questions that came out of it but it was not well attended. Thursday of this week there will be a final design meeting then they will go to the Planning Board for a stormwater review. This will be voted at Town meeting. The project was approved **\$1.957M** and the estimate came in at \$2.2M it is about \$300K over the estimate. When the study was done they used GIS and not a true topographical study. The material export has doubled, the price of concrete has increased and the existing electrical panel there is not large enough to light the tennis courts and storm water solutions. Additional funding is required. Four alternates will be provided with the bid. They may go back to CPC for additional funding at Special Town Meeting in the Fall. They will not know the exact costs until the bids come in for the project. Site challenges

are the existing slopes and will require retaining walls, proximity of the tennis courts and elevations wedged between track and skate park/rink and road, cut to fill operations and construction logistics. The Select Board asked that the storage unit be evaluated. If construction begins in July substantial completion is estimated for October.

The Board suggested the Beach commission meet with the North Scituate Beach Association. Mr. Boudreau will take a look at the Sand Hills parking area for a potential Bike Rack. This will be a Community Preservation project in May. The beach revolving fund would not require Town Meeting vote but will require a state contract through procurement. Next steps would be to meet with DPW and Recreation Director for funding from the beach revolving fund. Consider purchasing some this year and some next year. Ms. Harrison will send a note to Ms. Holt, Mr. Cafferty and Mr. Lombardo to arrange a meeting for funding, etc. with Mr. Mason.
